## Golf Tees

Most tees sold are made of wood (PTW), however there is a movement toward more durable performance tees. It's common to break a wood tee every few holes. FlyTee plastic tees (PTE/PTF) cost more but they last a lot longer, thus providing increased exposure. Flytee tees offer less resistance at impact for more distance. Similar to wood, the bamboo tees (PTB) are a great alternative. Though slightly less durable, they are a more budget friendly option. Price Per Thousand.
