Eco-Friendly Sports Bottles

32 Oz. Adventure Bottles Made With
Post-Consumer Recycled Tritan™ Renew

Here's How it Works:

Polyester waste, including carpet fibers and PET  drink bottles, is broken down to its elements. This process is known as "chemical recycling".

The molecules are reformed into new co-polyester that is crystal clear and food contact compliant.

We mold new, reusable, dishwasher-safe sports bottles using **50% post-consumer recycled content**.

Manufacturing Advantage:

USA-Made products you can trust: Garyline received International Sustainability & Carbon Certification! (ISCC)

Recycled content usage from certified suppliers will be audited annually by mass balance method.

Recycled content of lids varies. See website for details.

Eco-Friendly Sports Bottles

Post-Consumer Recycled Sports Bottles

UpCycle - Here's How it Works:

Single-use water and Drink bottles made from PET  are reclaimed from municipal recycling centers.

The containers are sorted, shredded and sanitized to meet food-contact compliance to make rPET material.

We mold new reusable sports bottles of higher value from **100% post-consumer recycled rPET.**

Recycled content for the lid varies. See website for details.

Let's Get Digital

Full Color Digital Print: Add \$0.75 (v)/Unit
Digital Set Up Charge: \$65 (v)/Imprint/Location

Manufacturing Advantage:

We can custom mold many of our Top Selling sports bottles with Post-Consumer Recycled Content!

Minimum Qty. 5,000. See Website for Details

Bottles are molded, printed, & assembled in USA!
Some lids are sourced globally. See Page 25 for details.

Bottles are molded, printed, & assembled in USA!
Some lids are sourced globally. See Page 25 for details.

HDPE: Here's How it Works:

Post-use plastic waste, including hard-to recycle food packaging is collected.

The material is turned into a liquid via advanced molecular recycling.

We mold new bottles that contain **50% Molecular Recycled HDPE**, which is audited annually using mass balance calculation.

Molecular Recycled HDPE bottles: promote a circular economy!

22 OZ. ECO-CYCLIST MOLECULAR RECYCLED BIKE BOTTLE

MRP24
AS LOW AS:
\$1.49 (R)

All HDPE & LDPE bottles can be offered with post-consumer content. Call for availability.

Eco-Friendly Tumblers & Bags

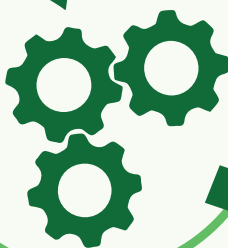

Post-Consumer Recycled Material Products

Here's How it Works:

Single-use plastic bottle caps are collected from municipal recycling centers.

The material is sorted, shredded, and sanitized for food-contact compliance.

We mold the exterior of our auto mug from this material and assemble it with a home recycled liner and lid.

Promote your brand responsibly with reusable auto tumblers made with **post-consumer recycled polypropylene**

16 OZ.
RECYCLED
AUTO MUG

AC14R
AS LOW AS:
\$2.99 (R)

Shown with Optional
Full-Color Digital

- Outer cup made from **50% Post-Consumer Recycled Polypropylene**
- Inner black liner molded from **100% Home Recycled Polypropylene**
- Lids Molded with **30% Home Recycled Polyethylene**

* This material is mostly from single-use water and drink bottle caps.
The colors vary widely, so the base color is gray, which limits the finished goods colors.

20 OZ. RECYCLED
AUTO MUG

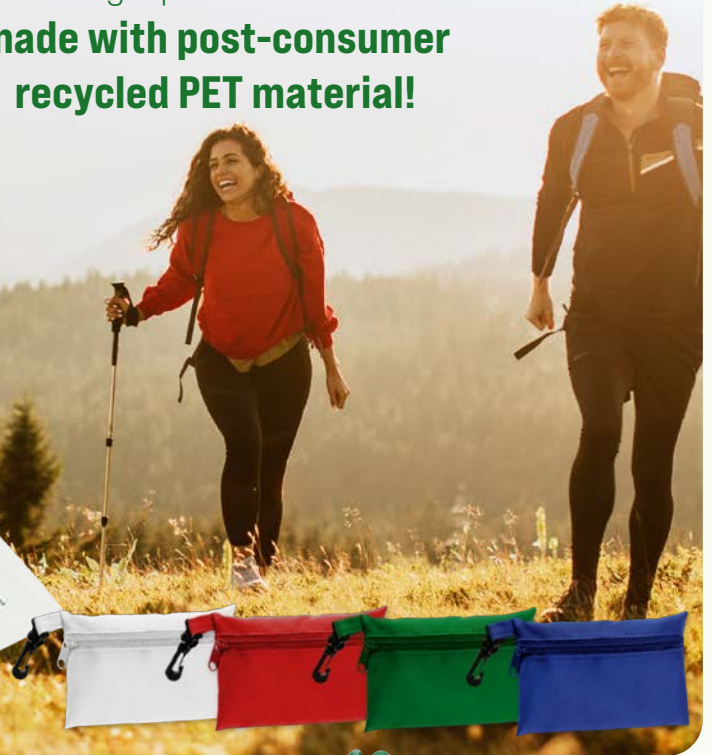

AC18R
AS LOW AS:
\$3.49 (R)

NEW!

We're dedicated to working toward a more sustainable future by making our products more eco-friendly.

Our best-selling Zip Tote First Aid Kit is now
made with post-consumer recycled PET material!

What's rPET? Single-use water and drink bottles are reclaimed from recycling centers, shredded, sanitized, then used to make eco-friendly reusable sports bottles, bags, and more!

THE ADVANTAGES OF CHOOSING GARYLINE

Garyline is a Primary Manufacturer

With all processes under one roof, we are able to maintain inventory in a wide variety of colors and to produce even the largest orders to meet your clients' needs.

Post-Consumer Recycling

Garyline has been a leader in developing uses for food-compliant recycled content. rPET has replaced more than 10% of our PETE usage over the last 6 years. We have International Sustainability and Carbon Certification (ISCC) which is audited annually for advanced molecular recycling for Tritan™ Renew. We will continue to partner with municipal recyclers and advances in molecular technology.

Gary Plastic Packaging Corp is a Primary Recycler

We have been recycling plastics for more than 50 years. Garyline produces post-industrial "home" regrind on our premises, which is the guideline for food compliant house ware products. "Home" recycled materials subject to inventory availability. We also use post-consumer resins that have been reclaimed from local recycling centers and sanitized into food-compliant HDPE.

Reusable Products that Replace Disposable Products are Eco-Friendly

In addition to recycled products, Garyline offers more than 250 refillable bottles, mugs, cups and tote bags. It's Good for the Environment and a Great way to Save Money!

Award Winning Customer Service

We are among the Counsellor Top 40 Suppliers in the Industry with a 5-Star Rating with ASI/ESP and an A+ Rating with SAGE. We have won a Distributors Choice Award for each of the last eight years.

Custom Product Colors

Garyline can mold more than 200 products in Custom Colors to meet your promotional needs. We have more than 50 standard colors, and we can match a PMS color. Minimum quantity is generally 10,000. We can start molding standard colors within a week. Call for pricing and delivery.

Make Your Next Promotion a Success with Digital Color

Full Color images add impact and value to your promotional messages. Garyline offers more than 250 items with digital direct or digital transfer imprints. Pricing & production times are available on each product page.
